Colleen.Henry@cyfn.net

The Arctic Athabaskan Council cordially invites you to:

Caribou, People and Resiliency in Arctic North America

Barren-ground caribou are declining. Is this due to natural cycles, climate change or both?

This session features aboriginal hunters/elders and scientists focusing on caribou, climate change, community resilience and adaptation.

Agenda Items:

-A presentation by MC, Dr. Robert Correll of the Heinz Centre

-Panel Discussion including northern aboriginal elders, youth and leaders

Light Refreshments to follow
